

FOR IMMEDIATE RELEASE

**LAMBSON'S HIRE INVOLVED IN CSI INITIATIVE AT BOIKARABELO  
AFRICAN VILLAGE**

In a CSI initiative, Lambson's Hire has provided cabling and network points for 25 computers at the Boikarabelo sustainable African Village (formerly the Botshabelo Community Development Trust, Magaliesburg) near Magaliesberg.

The village, founded in 1990 by Con and Marion Cloete, is dedicated to improving the lives of the economically challenged, especially children who have been abused or orphaned by or exposed to HIV/AIDS.

"In addition, we have undertaken to supply plastering packs for all students who graduate from the relevant learnerships conducted at Boikarabelo for the next three years," CEO of Lambson's Hire, Rohan Lambson, says.

The plastering packs include a Master Finish square trowel, a coving trowel and a wooden float which are sold by sole agents Mayday Equipment, a Lambson's Hire sister company.

“These Master Finish tools are of the highest quality and will give many years service to the learners. By giving them the tools of their trade they are able to go out and secure work,” Lambson explains.

CAPTION FOR CSI 01: Rohan Lambson, ceo of Lambson’s Hire, congratulates one of the students.
