Goscor Cleaning Equipment puts the shine on Norcros Johnson Tiles

Industrial cleaning machines from Goscor Cleaning Equipment are meeting all the cleaning requirements at tile manufacturing giant, Norcros Johnson Tiles South Africa's Olifantsfontein plant in Johannesburg.

The Tennant M20 Scrubber/Sweeper, 5680 Scrubber and the S20 Sweeper from Goscor Cleaning Equipment have been operating problem free for approximately five years at the Olifantsfontein plant which has been manufacturing tiles to the highest quality standards since 1952. The M20 and 5680 are used in the tile factory to clean dust generated by the manufacturing plant while the S20 effectively removes product spillage in the tile adhesive factory.

"We are very satisfied with the performance of these three machines," states Norcros Johnson Tiles Security & Maintenance Manager, Hannes Delport. He adds that the equipment's versatility and reliability made the decision to deal with Goscor Cleaning Equipment a no-brainer. "We have only ever used machines from Goscor Cleaning Equipment and we are currently happy with what we have so why use something else? Goscor's extremely versatile range of cleaning equipment suits our needs and the machines can be used in both wet and dry conditions."

In addition to regular maintenance by Goscor's technical service team which further adds to equipment reliability, Goscor Cleaning Equipment also sees to our operators' training requirements on the correct use of the machines," concludes Delport.

Goscor Cleaning Equipment, previously known as Tennant SA, and part of the Goscor Group of Companies, brings 32 years of experience in the cleaning industry and provides complete, superior quality sales and rental industrial cleaning equipment solutions to mines and industries in the Southern African and SADC region.

The company represents world-leading brands that have earned their reputation in the market place for quality, reliability and performance including TENNANT, GHIBLI, DELFIN, MAER, GREEN MACHINE, ELGIN, and Vacuum-Trucks.

With offices in Johannesburg, Durban, Port Elizabeth and Cape Town, supported by reputable agents in Polokwane, Nelspruit, Richards Bay, East London and Bloemfontein, combined with one of the largest stock holding of commercial and industrial vacuums, single disc machines, scrubbers, sweeper scrubbers, beach cleaners, high pressure cleaners, vacuum trucks, road sweepers and escalator cleaners, consumables and spares, Goscor Cleaning Equipment is positioned to provide the ultimate cleaning solution to meet almost every cleaning application.
