### **Dynapac Light Compaction equipment - light in weight only!**

**Dynapac Construction Equipment's range of efficient and versatile Light Compaction Equipment (LCE) is suited to a wide range of tasks that demand easy handling and manoeuvrability.**

*“Our LCE range of tamper rammers, forward, and forward / reversible plates, walk behind and articulated utility rollers complement Dynapac's comprehensive product portfolio and are the perfect addition to any fleet,”* says Neville Marthinussen, Business Line Manager at Dynapac South Africa.

Dynapac's high quality LCE range provides the finishing touches to all projects. The rammers allow for high precision manoeuvring in harsh environments while the forward and reversible plates are equally at home in both small confined areas and large open spaces. The Dynapac double drum roller delivers the perfect finish on soils and asphalt. Operator safety is a top priority in the design of Dynapac's LCE units; safety is put first with the remote control capabilities of the radio controlled utility roller.

*“Our extensive light compaction range is based on well-known and high quality technology, adding tremendous value to our customer,”* says Seby Joseph, Marketing Manager Light Equipment.

Customers, end-users, and dealers are assured of technical service, training, parts and warranty support from Dynapac's highly-skilled global sales and after-market sales network. Dynapac is committed to continued strategic investments to further strengthen the sales and support network of the globally available Light Equipment.

The introduction of the products was driven by immense market demands for compact, world-class quality, ruggedly reliable, easy-to-operate Light Equipment. Roll out of the complete range which focusses on the highest utilised models, was completed by the end of last year and introduction into South Africa during the first quarter of 2019.

“These products will be supplied, serviced, and maintained mainly through our Light Equipment dealer network, a footprint that is developing positively and in-line with our roll-out plan,” confirms Marthinussen.

“Having achieved a resounding success thus far, we are confident that the innovative range will continue to assist customers' grow their businesses' productivity and profitability,” concludes Marthinussen.
